

Emergency Preparedness Plan

The Columbia County Board of Education expects personnel and students in each school to be aware of the dangers that threaten their lives and safety and that they be prepared to take appropriate action in the event of an imminent or actual disaster. As such, each school shall develop an emergency preparedness plan to address as a minimum the following hazards: fires, tornadoes, floods, storms, earthquakes and bomb threats. The plan shall also include provisions for communicating information on emergency preparedness procedures to staff and students as appropriate. The implementation of this plan shall also provide for drills as appropriate for emergencies arising from these hazards.
