

Extracurricular activities are school sponsored programs for which some or all of the activities are outside the regularly scheduled class day. Therefore, these extracurricular activities of the school must in no way interrupt the regular daily schedules set forth for any student. Other periods of time, namely recess, lunch hours, activity periods and after the close of the school day, should afford ample opportunity for these activities.

In accordance with School Board Procedure JH, the principal of each school shall establish written procedures and guidelines for conducting after school outdoor activities on days when the temperature and humidity are extremely high **or there is a potential for unsafe weather conditions**. Such procedures shall be distributed each year to all student participants by the head coach or sponsor of all after school outdoor activities.

Only students enrolled in Columbia County Schools shall be eligible to participate in extracurricular activities.
